

Underclassmen

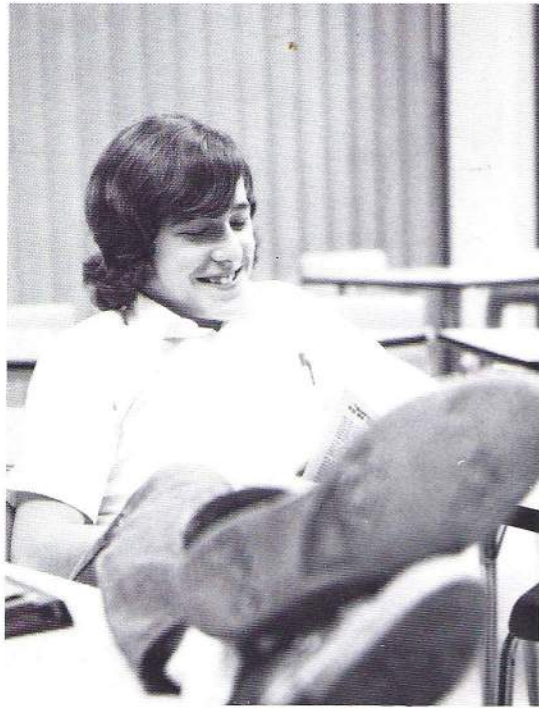

Sophomores

New to the building and to the routine of high school, the sophomores come to East apprehensive but excited to learn and become part of our Senior High School. A new experience to the sophomores is the freedom of the Learning Center, the Commons, and the lack of mandatory study halls. The general sophomore response to the relaxed atmosphere as compared to a junior high atmosphere is a favorable one. In early October the sophomores experience their first Homecoming with the entry of their sophomore class float. Little by little they become a part of each activity, each event, until the apprehensiveness and newness fades away. In its place is the feeling of familiarity and certainty, as they look forward to the same, now familiar activities in their junior year.

Juniors

Each September the junior class returns to Tosa East with a bit of familiarity and a bit of eagerness to begin the new school year. But this year the class of '76 found that although the eagerness may have been there, the familiarity with the school they knew was not. Remodeling of East created confusion, but the juniors overcame this obstacle and rose to the top in creating their first-place homecoming float, "Can't Stop the Raider Machine," and organizing their junior prom.
